

INTEGRATED TRANSPORT STRATEGY SOLUTIONS

NW Segment

Solutions:

- Improved public transport interchange facilities and rail station facilities - including additional park & ride facilities.
- Bus quality contracts, quality bus corridors (including JETTS) and segregated busways (including Leigh - Salford - Manchester) to improve local accessibility. Also linked to Metrolink and tram-train development.
- Metrolink and tram-train services to improve quality, reliability and access to inter-city rail services.
- Metrolink phase 1 infrastructure renewals and additional rolling stock.
- Additional heavy rail rolling stock.
- Highway development schemes (including Wigan Inner Relief Route, Westwood Link and A5225 Wigan Gateway).
